SNOW IS JUNE.—The Hamilton (C. W.) Times of the 23d says that snow fell in the southern part of that city, between twelve and one o'clock, on Tuesday last. The fall was light, but such a phenomenon is of strange occurrence on the 21st of June.

Hon. Alexander C. Walker, formerly a member of the State Legislature, has been nominated by the Dem. Party for Congress, to fill the place of Mr. Stephens, of Georgia, who has retired from Congressional life.

The Detroit Tribune is informed by a gentleman from St. Clair, that Deputy Marshal Tyler, now in jail at that place, got into a dispute with another prisoner in the jail, a day or two since, which ended in blows, from which contest the Deputy came out second best. The efforts of the jailer, we are told, for a time were of no avail to separate the combatants, the other prisoner appearing to hold a strong grudge against Tyler. Tyler it will be recalled, was arrested for shooting in Canadian waters Captain Jones, of the schooner Concord.

A careful investigation has developed these facts. There are at present in London (which contains nearly three millions of inhabitants) 1362 wives who have left their husbands to follow their lovers; 2371 husbands who have run away from their wives; 4120 couples living apart by consent; 191,023 couples living under the same roof in a state of warfare; 162,320 couples having each other cordially, but making, in public, their furious hatred under a feigned politeness; 510,132 couples living in a state of indifference to each other; 1102 couples reputed happy by the world, but who are not so in reality; 125 couples happy in companionship with others more unhappy; 7 couples really and truly happy.

The Chicago papers give an account of the elopement of her husband, and from Fort des Moines, of a remarkably handsome and dashing young lady, who belongs to a wealthy family in Boston. She was married against her will to a middle-aged Western man, and quite in a hurry, as her conduct caused her friends to suspect that she was too familiar with an unprincipled sporting man, well known as the keeper of a faro bank and the owner of a trotting home—a marriage with whom they wished to sever at any price. She was wicked enough to take with her, probably induced by the "sporting man," her guilty partner, \$275 in cash, and her marriage certificate. The middle-aged gentleman is after them.

The number of dead letters annually returned to the Department at Washington, is about 1,250,000. About 20,000 annually are found to contain money and other valuables, and are, as soon as found registered and returned to the owners. The aggregate contents of letters thus annually returned to the owners is about \$60,000 in money, and about \$5,000 in drafts, checks, notes and other valuables, as computed at their nominal rates.

In the United States Circuit Court at Cincinnati Thursday, Adam O'Leary, the Postmaster at Hamiltonville, Highland county, Ohio, arrested some time since for embezzling from the office two letters, one containing one dollar and the other ten dollars, was put on trial. He withdrew his plea of not guilty and made that of guilty, and was sentenced to pay a fine of ten dollars and to a term of ten years in the Penitentiary. This should prove a warning to dishonest Postmasters.

The coffee-house and reading-room just established in No. 25 New-Bowery, New York, to reform "the boys" of the 4th Ward, was formally opened Thursday night by addresses from Mayor Tiemann, (who, possibly) the Rev. Henry Ward Beecher, Oville Gardner, to whom the superintendence of the room has been assigned, and several others. The room was crowded.

A man named Gaines, residing at Struth, Ind., lost his life by his recklessness, a few days ago—some of his friends having said that "some of his wintering, which they had was too strong for me, Gaines maintained the opposite, and to prove that he was right, drank two tablespoonsful, which soon produced vomiting, and in a few hours death.

LATER FROM CALIFORNIA

Arrival of the Moses Taylor.

New-York, June 26.

The steamship Moses Taylor arrived at 12:30 P. M., from Apia on the 19th with California mails to the 6th. She has 600 passengers and \$2,041,000 in specie.

The Golden Age took from San Francisco \$2,450,000 in treasure, of which \$320,000 was for England, and \$275,000 in specie for Asopolo.

The revolution in Chili is perfectly suppressed. Frequent outrages are reported by bands of robbers throughout the country.

The leader of the revolution in the North Senor Gallo, was at Lima. Don Bartolomeo Riobe had been sentenced to death, and two others to ten days banishment.

The Austrian frigate Novara had left Valparaiso for Gibraltar.

Bolivia and Peru were in a peaceful condition.

The U. S. frigates Merriman and Saranac were at Callao.

The blockade of the Equatorial ports, by the Peruvian squadrons, continues.

The English ship Indian Queen, Brewer, from Melbourne for Liverpool, with 41 passengers, struck an iceberg April 1st. Capt. Brewer, first mate, 13 men and two passengers, got into a life boat and came alongside a quarter of an hour afterwards, and finding the ship making no water, attempted to get on board, but, losing their own when too far off to catch a rope, drifted off and were never seen after. The ship is a dismantled condition, but all on board well, reached Valparaiso May 10th.

SALVADOR

An attempt had been made to assassinate Gen. Hernandez, Governor of the Department of Cuscatlan, who was severely but not mortally wounded. The would be assassin was shot.

War seems inevitable between Salvador and Honduras, but it was thought Guatemala would interfere to preserve peace.

NICARAGUA

Gen. Lama had sent copies of General Case's dispatches to the Government demanding acceptance to the Case Yrisari Treaty Ratification of the Mosquito Convention, Re-stitution of the Wright Contract, Transmigratory Indemnification for the seizure of boats and satisfaction and apology to the United States, for the insult of having offered them the Okey Treaty.

The substance of the Nicaraguan reply is as follows:

Nicaragua, as a sovereign power, claims the right to accept or reject a treaty; she had made previously three treaties with the United States, which were ratified by her Congress and rejected at Washington; that on this one she only requires amendments, and that after the Congress considered the treaty last year, and it had been sent to Gen. Jerez, in Washington, who had full power to remedy it. The Cabinet though agreeing to certain modifications, did not make them; nor was the United States Minister in Nicaragua authorized to do so. Furthermore, that when Sir Gore Ouseley concluded his treaty, which was the Case-Yrisari treaty, with the re-modified amendments, according to the American view, Gen. Lamar made the Zelenon treaty, with the favorable amendments as to England and the United States of Sir Gore Ouseley.

The Government of Nicaragua cannot see any insult to the United States in this. As to the Mosquito treaty, it has not been rejected, and will probably be accepted. Nicaragua claims the return of the Mosquito territory unconditionally, and refuses to acknowledge a King whom neither she nor the United States ever admitted, and she professes to let the matter remain *status quo* than set against her ally. In regard to the seizure of the boats, Nicaragua justifies her conduct.

CALIFORNIA.

There is no news of interest from California or Oregon.

PITTSBURGH, June 25.

About 9 o'clock last night Richard Jones killed his wife by stabbing her several times and shooting her, mutilating her in a shocking manner. He immediately surrendered himself to the police, alleging that he had committed the deed while she was in the act of adultery with a butcher named Mentger, who was also shot and had fallen into the river, the affair having taken place at the upper Mongahela bridge. It was rumored that Mentger was seen alive this morning and well, but this needs confirmation. Jones' wife had been a notorious prostitute named Mary Delana and had served a two years term in the State Prison. Jones has highly respectable connections.

To obviate the delay in the delivery of American letters in England, the Postmaster General has made arrangements for sorting the letters on board each steamer on her homeward trip, so that they will be ready for delivery the moment the mails are landed. This plan has been found to work admirably on the Peninsular and Oriental steamers.

NEWS SUMMARY

—The Newburyport Herald says that an individual in that city drank three quarts of milk the other evening, without stopping and after taking a chance to breathe, imbibed another quart!

—The Empress has requested all the ladies of her household to employ themselves in making lint for the army, and the Prefect of Paris appeals to all the inhabitants for supplies of old linen and bandages for the same purpose.

—The number of emigrants arriving at the port of New York since the first of January is 55,354—an excess of 4,884 over the same period of last year.

—The Wisconsin Methodist Conference has expelled Rev. J. W. Wood for what they call scriptural adultery, which consists in marrying a second wife while the first was living, from whom he was legally divorced, but not for the reason for which the Bible allows divorce.

—A few days since a boy in Philadelphia found a sealed tin canister floating on the water, which on being opened, was found to contain \$4,000 in bills. The money is supposed to have been stolen, and placed in the side of a culvert emptying into the creek, and that the tide washed it off.

The Ginning excitement exists in Wisconsin as well as in Minnesota. It is estimated that \$100,000 will be paid to the inhabitants of Bad and Richland counties, Wis., this season for the root that will be gathered.

The greatest instance of impudence on record, is that of a Yankee, who, in an Italian city, stopped a religious procession in order to light his cigar from one of the holy candles.

A child five years old was left alone in a house by her mother, while the latter went out to make some purchases, on Thursday last, at Galena, and getting at some matches, the little one set clothes on fire and was burned to death.

The Red Bank (N. J.) Standard says that the peach trees in that section are dying by hundreds. The cause is attributed by some to the excessive cold weather during the winter, as a great many trees were frozen so badly that the bark bursted on them.
